

FacilityConneX Becomes a Member of CABA!

Plymouth, MA and Ottawa, Ontario, Canada --- April 10th, 2017 --- FacilityConneX announced today that they will be joining the Continental Automated Building Association (CABA). The association is dedicated to the advancement of intelligent home and intelligent building technologies. FacilityConneX is a leader in monitoring based commissioning and advanced analytics helping commercial, educational, healthcare, and manufacturing facilities achieve their goals in energy savings, operational efficiency, and overall sustainability. “CABA is the right place for FacilityConneX to help the advancement of energy conservation with intelligent building technology.” Says Tom Schiller, CEO and President of FacilityConneX. “Our Cloud Based Solution is deployed all over the world and connected to over 10,000 pieces of equipment.”

CABA has over 24,000 subscribers world-wide and leads the advancement of technology for buildings and home. “We are happy that FacilityConneX is joining CABA,” said Ronald J. Zimmer, CABA President and CEO . “The FacilityConneX solution is a set of technologies that we are proud to promote to the industry and throughout our Association’s large membership base. Leveraging advanced analytics and connection technologies, FacilityConneX is providing a foundational basis for the Internet of Things (IoT) in homes and buildings.”

In several hospitals, universities, and manufacturing facilities, FacilityConneX is finding energy savings on a continuous monthly basis from 10% to 25% depending on the equipment – called “FCX Opportunity Savings”.

- In hospitals, FacilityConneX is not only identifying opportunity savings, but also in critical areas with “Continuous Monitoring for Infectious Disease”, and helping in Joint Commission Audits.
- In commercial and university campuses, FacilityConneX is contributing to the energy goals, but more importantly helping the facility engineer proactively maintain the equipment.
- In manufacturing facilities where complicated processes and compressed air systems can be sequenced and optimized for peak performance, energy savings can be upwards to 35%.

FacilityConneX is the Voice of Your Equipment. What is your equipment saying?

About CABA... The Continental Automated Buildings Association (CABA) is an international not-for-profit industry association dedicated to the advancement of intelligent home and intelligent building technologies. The organization is supported by an international membership of over 330 organizations involved in the design, manufacture, installation and retailing of products relating to home automation and building automation. Public organizations, including utilities and government are also members. CABA's mandate includes providing its members with networking and market research opportunities.

CABA also encourages the development of industry standards and protocols, and leads cross-industry initiatives. More information is available at www.caba.org

About FacilityConneX... FacilityConneX is the leading cloud platform that is focused on helping customers achieve energy, sustainability, and operational goals through leading edge technologies in connection, visualization, and fault detection and diagnostics. FacilityConneX solution also include top experts in energy and commissioning that designs your solution and helps your team achieve a continuous return on investment (the FCXperience).
